# Letter, Direct Marketing and Publication Services – Contract Prices January 1, 2018

These Contract Prices of Posti Ltd (hereinafter Posti) are valid from January 1, 2018, and replace the Tariffs and Rates of Contract Services of June 1, 2017.

## Value added tax

The tariffs and rates are quoted excluding VAT, unless otherwise stated. VAT valid at the time will be added to prices during invoicing.

No VAT is added to the tariffs and rates applying to mail addressed to the Åland Islands, special areas outside the European Union's excise and VAT zone and non-EU member states.

## General basis for discounts

The prices and pricing principles of the services are defined service-specifically later in this Price List or in service-specific price lists. Discounts are calculated from the list prices valid at any given time and are determined on a service-specific basis.

The primary principle for discounts in domestic addressed letter and marketing items is the annual volume. The discount requires a separate agreement, mailing plan and advance information on mailing.

The annual volume discount for letters requires a specific minimum volume of annual items in accordance with the agreement or its price appendix. A written agreement will be made in advance at the beginning of the agreement period on the planned mailing items and their estimated annual volume.

In Publication Services, the primary principles for discounts are the number of publication times per annum (the Posti Magazine 1, Posti Magazine, Posti Newspaper, Posti Daytime Publication Delivery and Posti Long-distance Publication Delivery services) and the local reach of the publication (the Posti Daytime Publication Delivery service). The principles for discounts on Publication Services, are presented on page 12. Qualifying for the discount requires a separate agreement, placing an advance annual order, updating advance order information, and a mailing plan in the electronic service channel offered by Posti.

Discounts are determined service-specifically and the details of the basis for discounts may vary depending on the service. The basis for discounts is specified in more detail in the price lists of various services, customers' agreements, or the price appendices of such agreements. The actualization of the bases for discounts is monitored by Posti. If they differ from what has been agreed upon, Posti has the right to cancel any discount given / revise the discount level according to the actual level.

## Further Information

Further information can be found at [www.posti.fi](http://www.posti.fi).

If the letter's width, length, or thickness exceeds the size of 250mm x 353mm x 30mm, the item will be handled and invoiced as an Posti Economy or Posti Priority letter with an additional Maxi Size service.

## Nationwide Publication Delivery

Your item is transported from one point to another in Finland. You can select from several weekdays.

Posti Publication and Posti Publication 1 services are suitable for publications published less frequently. The services are easy to use as you do not need to provide advance information about the mailing. The Posti Magazine, Posti Magazine 1 and Posti Newspaper services are suitable for magazines and newspapers that are published regularly. Publication deliveries are ordered in advance and costs are saved.

The Posti Newspaper service is for tabloid and broadsheet formats. The Posti Magazine service is for the magazine format. See service-specific dimensions.

The Posti Magazine and Posti Newspaper services are a solution for publication-type items comprising a minimum of 1,000 items per item batch and delivered at least four times a year to a relatively stable group of recipients. When a publication is published regularly (at least 48 issues per year), batches consisting of less than 1,000 items are possible.

## Item Pricing

The pricing of Posti Customer Direct is based on the item weight, quantity and batch size.

## Mailing Methods that Affect the Price

When you inform Posti of a batch of at least 20,000 items seven weeks before the mailing date, you can get a 2% Advance order discount. The advance order is placed by filling in the mailing list (mailing location and date, number, item weight). The number information in the advance order can be changed by +/-10% and item weight by +/-30%. If the information changes more or if the mailing location or date changes, the advance order discount will no longer be available.

The mailing batch reported on a mailing list. Additional Handling (subject to a charge) will be added to Posti Customer Direct items when the item's dimensions or shape differs from the product features defined for the specific product or if it cannot be prepared according to Posti's instructions.
